Experience

- Feb 2016 - Present — **Thrillist Media Group**
Software Engineer, Platform Launch
Acted as lead to build a new content site in under 4 months. Worked on all aspects of the site, including search, landing page, and content pages. Focus on writing reusable, modular code using PHP, JavaScript, HTML, and SCSS.
- June 2014 - Feb 2016 — **Full Stack Developer**
Build forward facing features for content and commerce sites using PHP, JavaScript, HTML, and SCSS. Projects have included: building a system to allow users to save places, and refactoring and restructuring server side article logic.
- Summer 2013 — **Medialets**
Front End Web Developer Intern
Built web app to display advertisements for use by the sales team. Used Backbone.js, Node.js, JavaScript, SCSS, CSS, and HTML
- Aug 2013 - May 2014 — **University of Pennsylvania**
Instructor - Ruby on Rails
Taught Ruby on Rails, HTML, CSS and JavaScript to class of 20. Created lesson plans, provided one-on-one help, and managed 2 TAs
- Fall 2012 — **Teaching Assistant - Ruby on Rails**
Assisted in the teaching of Ruby on Rails, HTML, CSS, and JavaScript to over 30 students through one-on-one help and grading.
- May 2012 - May 2014 — **Sound Director**
Managed operation of the committee, including coordinating over 15 audio technicians, and managing a budget in excess of \$15,000.
- Oct 2010 - May 2014 — **Sound Technician**
Worked as an audio technician, problem solving audio concerns as needed.
- Sept 2012 - Mar 2013 — **Freelance**
Web Developer
Designed and built web apps for clients using HTML, CSS, jQuery, and Ruby on Rails. Created icons using Photoshop and Illustrator.
